Communication

Capable Of Resolving
Challenges

SUMMARY

A motivated and trustworthy individual currently pursuing MCA after completing BCA, with a strong foundation in computer applications and a passion for continuous learning. Known for being punctual, honest, and reliable, with excellent time management skills. Demonstrates a positive attitude towards learning new technologies and adapting to dynamic environments. Committed to delivering quality work with integrity and discipline in every task undertaken.

PROJECT

• Zomato Clone- Online Food Delivery System:

Designed and developed a responsive **Food Delivery Website** using HTML, CSS, and JavaScript that allows users to browse menus, select items, and place orders online. The project includes features like dynamic cart updates, menu filtering, interactive UI components, and form validation for checkout. Focused on clean design, user-friendly navigation, and real-time interactivity using JavaScript. This project demonstrates frontend development skills and attention to user experience.

• CyberSecurity-Awareness-Quiz:

I developed a **CyberSecurity Awareness Quiz Website** using HTML, CSS, and JavaScript with the aim of educating users about safe online practices. The website features an interactive quiz format that allows users to test their knowledge of cybersecurity concepts in an engaging way. By combining a clean user interface with responsive design and real-time score calculation, the project not only enhanced my web development skills but also strengthened my understanding of essential cybersecurity principles.

CERTIFICATIONS

- Web Development Using HTML (IBM)
- JavaScript (IBM)
- IBM Cloud Fundamental
- Hack Hive
- Road Ahead Technologies (India) Pvt. Ltd

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript
Frameworks: React Js, Node JS
Developer Tools: VS Code, Git
